## Press Communiqué

# Take Punitive Action against CPA Violation

Lalitpur, May 8, 2009

INHURED International is gravely concerned with the recent political crisis emerged in Nepal after the unconstitutional step embraced by the President Dr. Ram Baran Yadav in connection with the expulsion of the Chief of the Army Staff Rukmangat Katuwal.

We are appalled with the deteriorating atmosphere of confrontation and crisis of faith among the key stakeholders of the peace process and the constitution-making endeavor which has led to obstacle in exploring smooth resolution of the ongoing political stalemate. Unambiguously, no desired solution of the constitutional dispute is possible through the acts of intolerance, instigation, unruly behavior and violent activities. There is no option of peaceful dialogue to explore an amicable solution of the current political imbroglio.

While efforts are underway to explore way out to the constitutional and political entanglement soon after the exit of the CPN United Maoist from the government, the indulgence of the local organs and sister organizations of the CPN United Maoist in unruly actions towards the rival party cadres/sympathizers in various parts of the country are in total contrary to the provisions of the Comprehensive Peace Agreement (CPA). Since such activities would fuel to derail the peace process resulting in further chaos and lawlessness in the country, we therefore strongly demand to immediately bring such activities to a complete halt, bring the perpetrators to justice and end the culture of impunity. Meanwhile, as the effective implementation of the CPA has been ever relevant during the transition, we strongly urge the government to instantly form a high level independent body to monitor the CPA as an integral part of the Interim Constitution.
